# TEDDY

# SMALL AND STRONG

TEDDY is a strong, professional 5-litre mixer for small daily tasks in the bakery, kitchen or laboratory. Smart Danish design with a focus on ergonomics, hygiene and easy cleaning, and the quality to handle hard work, year after year.

Teddy is low-noise, with the same kind of sounds of quality we associate with an expensive car, where the motor purrs and the doors shut with conviction. It makes the right sounds when you turn up the speed, and when you press the click-lock to tilt back the mixer head.

TEDDY is solid gear, designed to handle many years of hard work. It has a powerful, specially designed motor, which unlike most other small mixers is also capable of mixing heavy and difficult ingredients at very low speeds.

The speed can be infinitely adjusted using the machine's single control knob. The knob passes through the unit, so TEDDY can be operated from both sides, using either hand. This makes it easy to locate the mixer in confined spaces, such as against a wall.

TEDDY is made of die-cast aluminium, with no external screws or openings. All edges and corners are rounded, making it easy to clean the mixer with a cloth.

*TEDDY is made of die-cast aluminium and coated with hard-wearing silver, red, white or black paint.*

Silver grey

Racing red

Piano black

Pure white

Pure white with attachment drive

**EASY CLEANING** Its die-cast, rounded design and no external screws or openings make TEDDY easy to clean.

**ATTACHMENT DRIVE** TEDDY is also available in white with an attachment drive for mounting a stainless steel meat mincer.

**SAFETY GUARD** A fixed guard and a removable filling tray and splash guard protect both the operator and the ingredients, while allowing the mixing process to be monitored.

**EFFECTIVE TOOLS** TEDDY comes with a 5-litre stainless steel mixing bowl with a lid, a whip made of 2.5 mm wire, a beater and a specially designed hook which ensures dough is kneaded and turned to perfection. All accessories are made of stainless steel and are dishwasher-safe.

**AFFIXED BOWL** The bowl is held effectively in place during operation by a single lever.

**EASY OPERATION** Speed is infinitely adjusted using the pass-through control knob, which allows TEDDY to be operated from either side. The knob is also the click-lock and hinge point when the mixer head is tilted back to change tools.

**GOOD STABILITY** A wide footprint and suction cups ensure the mixer is stable during operation.

*The unit comes with a filling tray that makes it easy to add ingredients during the process.*

*When the tool rotates around its own axis, at the same time as being driven in a circular motion in the bowl, the entire mixture in the bowl is worked, and all points along the bowl sides are reached.*

*The shape of the hook ensures that the dough stays in the bowl and at the same time the dough is turned and folded.*

*TEDDY is the ultimate 5-litre mixer choice for professionals. Just as sturdy as it looks. Just as high quality as it sounds when the mixer head is tilted back. Just as strong as it is quiet.*

*Even at the highest speeds, TEDDY stands firmly on the table, and the bowl is effectively locked in place with a single lever.*
